A SEASON'S GREETING FROM PETER FRENCH-

Below is the Christmas card I sent out in 1962. I bought this car that year; it was a 1958 1600 Normal and was painted black. Curiously black was a custom color... it had beehive tail lights, a 1957 trait. In those days Porsche would manufacture a car and then put it aside until doing the custom paint jobs at the end of the year. By the time the car got here it was 1958 and that is how Connecticut licensed it.

Merry Christmas Happy New Year

2018 Event Planning Meeting *Saturday, Dec 2nd, at the Burlington Public Library*

TYP356ne will hold the club's annual planning meeting for the 2018 event schedule starting at 10:45 am on Saturday, December 2nd, in meeting room 4 on the second floor of the Burlington Library. For your GPS, the Library's address is 22 Sears Street, Burlington, MA 01803. Eight board members will be there, and there is room easily for 12 people and up to 14 total. So several more members can attend. I would encourage any member that would like to attend to do so, especially if you have suggestions for a club event next year. It would be ideal if you could let me know by email that you are coming.

If you cannot attend, but would like to host a drive or event next year, let me know the date you want to do this by email or telephone. I will see to it that the event you suggest is placed on the club calendar. If you need help planning or hosting an event, let me know. I will most likely be able to help you with the event planning and hosting that day. We are always looking for someone to do loafer's lunch drives.

A loafer's lunch drive can be any day of the week, but most often they are on a Thursday or Wednesday from about 10 AM to 12 PM. Typically members would meet at your home or some other spot to start a 1 to 1.5 hour drive you have planned. You would lead the drive ending at some place you think has good lunches. Everyone then eats together there paying for their own meal. It is a fun time, and not too hard to arrange on back roads that are familiar to you.

You could also host a BBQ at your home. Other options would be asking a good mechanic you know that is knowledgeable about 356s to host 1 to 2 hour open house at their shop on a weekend explaining what they have to offer. A body shop or detail shop would also be good choices as would a car museum or car collection. It would be great if some of our members in Maine, New Hampshire, Vermont, or Cape Cod could suggest or host some events in their local area. Anything you would think is fun or interesting would be great. Let me know if you have any ideas.

There will be coffee and homemade pastries, by Lisa Siegel, provided at the start of the meeting. After the meeting those that are interested can go as a group to a local restaurant for lunch.

2018 MEMBERSHIP RENEWAL

Attention All Members:

It is that time of year to again renew your TYP356ne club dues. 2018 club dues are due on 1/1/18 and overdue on 2/1/18. The yearly club dues are the same as in past years, which is \$30.00.

Note- If you plan to attend the Holiday/New Year Party you can send just one check to cover your dues and the party expenses. See page 5 for more party details.

Payment options are as follows:

- Club dues only for one year: \$30.00
- Club dues plus one attending the party: \$60.00
- Club dues plus two attending the party: \$90.00

Checks are to be made out to **TYP356ne** and mailed to:

DECEMBER IS CLUB ELECTION MONTH !!

Election details-

November (up to December 2nd) is the time for open nominees for the four elected club officers -- President, Vice President, Treasurer and Secretary. We particularly need nominees for Vice President and Secretary for the December ballot.

Please consider 'taking a turn' at club administration. Board meetings are easier to participate in since we allow members to join by telephone, eliminating the need to attend the meetings in person.

You can self-nominate or contact a member you think would make a good candidate and, with their permission, place him/her in nomination. No second is necessary. Submit nominations to the Election Committee at lencan21@gmail.com by December 2nd.

TYP356ne cannot operate effectively without a full slate of officers and club longevity could become an issue.

A ballot will be sent to all members in December and the results will be announced at the Holiday/New Year Party and in the February 2018 issue of TubTimes.

Len Cannizzaro, Chairman of the Election Committee

356 Winter Storage Tips

With the winter weather here, we, unfortunately, have to store our 356s during the winter months. The following is a list of suggestions selected from various emails along with some of my own. - ET

1. Don't put it away dirty. Wash and clean your Porsche inside and out and put a cover on it.
2. Don't leave dirty oil in the engine, change it and the filter.
3. Don't let water infiltrate your gas. Top off the tank and include a fuel additive like STA-BIL.
4. Don't let your tires develop flat spots. Inflate your tires to over 40 psi or, consider using tire cradles that are shaped to the tire and prevent flat spots without over inflating.
5. Don't let your battery die. Either disconnect the battery or attach a battery tender.
6. Don't apply the parking brake. Leave it in neutral and use wheel chocks, but leaving it in gear is fine.
7. Don't neglect your windshield wipers. Prop your wiper arms or place a small piece of cardboard between the blade and the windshield to protect the wiper blade edges. I use a block of styrofoam under each arm to keep the rubber blade slightly off of the glass.
8. If your 356 is in a damp area you may want to use reusable desiccant containers in the car. You may need a number of these as the interior of your Porsche is a large space. You can easily check them once a month or so and reactivate them per the instructions.
9. Rodents can be a problem if they get into your car. Here's a couple tips on how to deal with them-
 - ⇒ Decon works well, but don't use it if you have pets in the garage
 - ⇒ Dryer sheets work but buy the good ones....The cheap ones don't last.
 - ⇒ Sticky traps in the car work also, just to catch any mice with sinus issues.
 - ⇒ **Do not use Moth Balls, you will never get the smell out of your car.**
 - ⇒ Use an old tennis ball to plug the end of your exhaust pipe to keep them out.

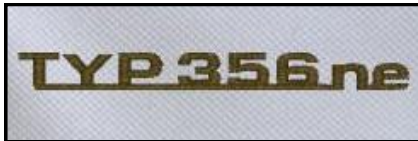

For more tips on dealing with rodents, see the Nov. 2015 issue of TubTimes. All back issues of TubTimes can be seen on the club website. www.TYP356ne.org
